Project Development Phase
## Sprint-3

Date	12-November 2022
Team ID	PNT2022TMID35932
Project Name	Hazardous Area Monitoring for Industrial Plant powered by IoT
Maximum Marks	4 Marks

Update for WEB UI with chart for Temperature:

OUTPUT:

Hazardous Area Monitoring

Temperature

41

0   c   80

Temperature

100

75

50

25

Humidity

40%

Gas Sensor

0

Mobile App Code:

Mobile App UI:

Problems Encountered:
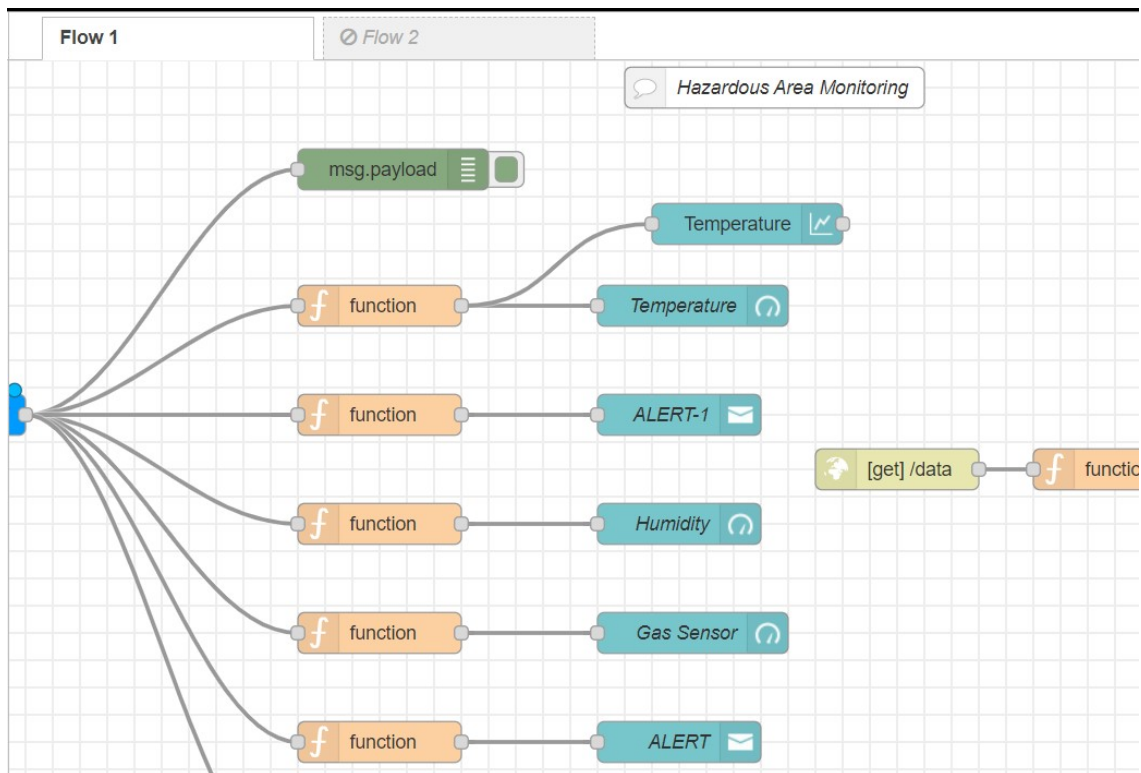

The IBMIoT output node in Node red is not sending data back to the end device properly.

All other components of the system have been tested and verified.
